

Mary's Center

Mary's Center embraces all communities and provides high-quality healthcare, education, and social services to build better futures.

Mary's Center is a nonprofit 501(c)(3) community health center serving people of all ages, incomes, and backgrounds in the Washington, DC metro area for over 30 years.

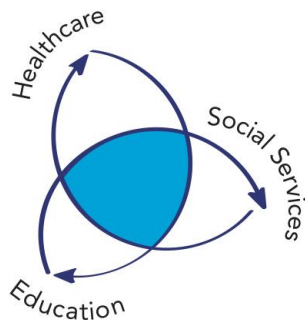

AN INNOVATIVE APPROACH TO CARE

We recognized early on that caring only for physical health concerns was not enough to nurture our families and communities.

Looking at every aspect of our participants' lives, we established our **Social Change Model** to foster good health, stability, and economic independence.

This model integrates medical, dental, and behavioral health services with social services, family literacy, and job training—all under one roof.

SOCIAL CHANGE MODEL

OUR VALUES: P.A.R.T.

Participant-centeredness

Accountability

Respect

Teamwork
