

# New Mask Mandate

Due to the increase in respiratory virus hospitalizations in our community, as of December 27, 2023 ALL Mary's Center participants and participant-facing staff are required to wear masks at our premises until further notice.

This decision is informed by guidelines from the local Departments of Health.

Mary's Center medical leadership will continue to track current illnesses rates and update guidelines as these rates change.

As a reminder, updated COVID-19 vaccines are another way to protect against the high rates of respiratory illness. Get vaccinated!
